

**RNA CENTER eCLIP PRICES
2024**

Full eCLIP prices (from crosslinked cells to QCed sequencing data)

UCSD Internal rate: \$2,650/sample

Non-profit rate: \$3,800/sample

For-profit rate: \$6,320/sample

The costs are broken down into three checkpoints. ***If samples do not pass a checkpoint, the customer will only be required to pay the amount specified at each respective checkpoint below:***

(1) Immunoprecipitation of RBP of interest, including all reagents, quality control with western blot of IPed protein. (*\$800, \$1,100, \$1700 per sample (input and IP)*)

(2) Library preparation, which includes all reagents and labor costs associated with library preparation, quality control with CT value and tape station. (*\$1,750, \$2,600, \$4,520 per sample (input and IP)*)

(3) Deep sequencing, which is performed at the UCSD IGM Genomic Center at their standard rates. *\$100/sample*
